

SPEC SHEET
6,000 LB. MEGA
ROLLER (TALL)
PN 3807

SPECIFICATIONS

- 6,000 lbs. weight capacity.
- 4" - 48" pipe capacity.
- 6" x 3" heavy-duty urethane over steel wheels with sealed bearings ideal for smooth bump free pipe rotation.
- Contamination free wheels are ideal for steel or exotic pipe fabrication.
- Heavy gauge steel construction throughout. These mega rollers are made for years of job-site abuse.
- Powder coated safety red for high visibility.
- Expanded foot print at 36" L x 32" W increases pipe stability.
- 34" - 48" standard adjustment height.
- Pinlock for fast adjustment.
- Threaded rod adjustment for load leveling.
