MULTI-ROLL LOW PROFILE PIPE ROLLER
PN 4375-LP

B&B introduces the new Multi-Roll Low Profile Pipe Roller. The new and improved Multi-Roll can raise and lower pipe to fit up under load and accommodate up to 36" pipe with no width adjustment necessary, thereby saving time and increasing safety. Available with Steel, Rubber and Stainless Wheels. All wheels lock, restricting pipe rotation.

- Offers additional functions as compared to the fixed height model.
- Allows pipe raising and lowering under load.
- 3,000 lbs. weight capacity (with steel wheels).
- Pipe capacity is 2" - 36".
- Pipe Brake System allows wheels on both sides of the jack to lock, restricting pipe rotation.
- Durable acme thread height adjustment.
- Extra wide wheels reduce pipe travel.
- Shipping weight 62 lbs.
